## PEOPLE WE KNOW.

They Are Wichita People and What They Say is of Local Interest.

When an incident like the following occurs right here at home, it is bound to carry weight with our readers. So many strange occurrences go by the name of the press, yet published as facts, people become skeptical on one subject skepticism is rapidly disappearing. This is due to the actual experience of our citizens and their public utterances regarding them. The doubter must doubt no more in the face of such evidence as this. The public statement of a reputable citizen living right here at home, one whom you can see every day, leaves no ground for the skeptic to stand on.

Mr. J. H. Carr, farmer, of 258 East Thirteenth street says: "Ordinary backache is sufficient to torment the average mortal, but when there is added to it trouble with the kidney secretions, which embitters you during the day and annoys you at night, it is no wonder the sufferer is miserable and welcomes the means he employs to get relief. I believe there is more kidney trouble in this city of Kansas than any other complaint. My advice to anyone annoyed with kidney complaint in any of its various forms is to go to the Moore Drug Co., 28 East Douglas avenue, take Doan's Kidney Pills, as I did, and result will tell you that they will really relieve you."

For sale by all dealers. Price, 25 cents per box. Foster-McMillan Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no substitutes.

## NEW PARTY TO FORM

Laboring Men Urged to Organize Political Party.

## INCEPTION AT CHICAGO

Principles of Proposed Organization are Outlined.

Chicago, Sept. 15.—A movement for enlisting the hosts of workmen throughout the United States into a semi-political organization has been launched in this city, says the Post. A platform said to embrace the economical and political ideas of labor leaders and covering the whole labor situation has been prepared and will be presented first for approval next week before the Chicago Federation of Labor. The platform demands the abolition of the so-called political machine, the establishment of government primaries wherever votes may be cast for "nominees as citizens and not as members of a machine," and the initiative and referendum. It favors the right of recalling representatives who are out of touch with voters. Relief from the trusts is suggested in the plan for "the passage of an amendment to the practice laws of every state and the federal government under which litigants may bring up, in any suit in which a corporation is the plaintiff or defendant, the question of its right to its franchise, whether it has usurped power not given it under statute and whether it has forfeited its powers."

This method, it is argued, would be productive of more good than the litigation of suits by federal attorneys. Vigilance committees in every state and large city are favored to see that the laws are impartially administered. The eight-hour day, sanitary conditions, living wages, the repeal of the laws limiting liabilities in personal injury suits, the supply of free text books to all children in the lower grades of public schools and the abolition of convict labor in competition with free men are demanded. Limitation on the injunction powers of judges is asked and the popular election of federal judges and senators is suggested. In all civil trials majority verdicts are desired. The plan favors the government instead of banks lending all kinds of money and it is suggested that private individuals be driven from the banking business. Laws are demanded restricting the issue of stock bonds or securities to any greater extent than the actual property owned by corporations. The abolition of public utilities is desired and state insurance and provisions for other public advantages is approved. Child labor is desired and educational aids and trade unionism to keep up wages are advocated. In closing the platform reads:

"In order to bring about a state of harmony instead of constant discord, the workmen must look for relief at the ballot box. Here where the will of the people is supreme, the remedy lies at hand and must be taken advantage of. Workmen must undertake to govern, as well as toll, and in that way they will get justice."

## MUSIC AND DRAMA.

A FOXY TRAMP.

"A Foxy Tramp," the new comedy drama in four acts by Nelson Lewis, is a thoroughly up-to-date production, and does not look to tank scenes, railroad wrecks or war scenes for its thrilling climaxes. A great percentage of its strength lies in the perfectly legitimate dramatic situations provided only one act approaches the distinctly lurid type, and that shows the interior of a bank with robbers at work who drill and blow the safe with dynamite. In this scene a real safe is carried, and you will see the actual manner in which bank robbers tore and blow up bank safes.

The engagement is for one night at the Crawford, Friday, September 19.

Songs and dances and a variety of pleasing specialties as far as make the performance of "Too Rich to Marry," which will be at the Crawford opera house on Monday, September 22, one of the most pleasing attractions now touring the country. Special pains have been taken to make the specialties a deserving feature of the performance. The vaudeville artists who make up the specialty forces of the company are of the best. Plenty of specialties are given between the acts, so that the audience is continually entertained.

The comic opera success of "A Fox and a Crow" and Smith's "Foxy Quiller" will be presented at the Crawford. The music of "Foxy Quiller" is beautiful. Mr. de Koven's most delightful melodies, but the instrumentation is so rich and varied that it makes a direct and compelling appeal to the educated musician as well. Mr. Smith's book fairly bristles with wit, and there is enough clean, bright and
